	Doz.	Per 100.	Per 1000.		Doz.	Per 100.	Per 1000.
Roman Hyacinths.				Italian or Parisian Hyacinths.			
White Roman, extra size, 12 to 15 centimetres (4¾ to 5¾ inches) in circumference...	.25	1.65	14.00	Extra size. A little later in blooming than Romans. Good for succeeding crop; white flowers; bulbs 12 to 15 centimetres (4¾ to 5¾ inches) in circumference.	.25	1.50	14.00
White Roman, double extra, 13 to 15 centimetres (5¼ to 5¾ inches) in circumference.	.30	1.75	16.00				
White Roman, "Selected Special," 15 to 17 centimetres (5¾ inches and up.) This grade, the cream of the crop, can only be supplied in limited quantities.	.35	2.25	20.00	Hyacinths, "Dutch" Romans.			
Blush Pink, Roman, extra size, (Semi-double) 12 to 15 centimetres (4¾ to 5¾ in.)	.20	1.25	11.00	These we are not offering this season. They do very well as a substitute for French Romans, when the latter are high priced and wanted late, but conditions being reversed this year—French Romans being low priced and Dutch Hyacinths high, we cannot advise using "Dutch Romans" which are only the miniature bulbs of Dutch Hyacinths.			
Dark Rose, Roman, extra size, (Semi-double) 12 to 15 centimetres (4¾ to 5¾ in.)	.20	1.25	11.00				
Light Blue Roman, extra size, (Single) bulbs, 12 to 15 centimetres (4¾ to 5¾ in.) circ	.20	1.25	11.00

HENDERSON'S SPECIAL BEDDING AND FORCING HYACINTHS.

The bulbs under this heading are of a much larger size than those put in ordinary mixtures; in fact they are the second selection from Named Sorts. They will produce grand spikes of bloom, and the different sorts, as offered below, all being of one shade of color and all blooming at one time, render them of great value for forcing or bedding out, especially in designs, enabling one to secure the exact color effect desired, which is a great advantage over mixed reds, mixed blues, etc., at but a slight advance in price.

IRIS KÄMPFERI.

SPANISH IRIS
FOR FORCING.

THESE almost equal orchids in beauty of coloring and delicacy of perfume—the flowers are of great beauty and cut in the bud state, last from one to two weeks in bloom—longer than any other cut Iris. One root bears one stem bearing two flowers in succession a week apart; the faded flower does not show a mark on the stem when removed. All growers of cut flowers should try these this season; they are low priced, and if planted in boxes and placed in cold frames until they show bud, then bring into heat they can be had in bloom from March on, and will give great satisfaction.

LILY OF THE VALLEY.

HENDERSON'S
 : Large Flowering :
LILY OF THE VALLEY PIPS.

To make a complete success of forcing Lily of the Valley, it is absolutely necessary to have pips that have been grown in a soil and climate congenial to their proper development; there are many pips annually offered that are late flowering, and having few and small bells, are absolutely worthless for forcing. The past winter we had a complete trial of pips from English, Danish, French and Dutch, as well as from all German growers of repute, and we are pleased to see that **Henderson's Large Flowering Hamburg Pips** were by far the best. Producing robust long spikes of 11, 13 and 15 large bells each.
